I believe this involves an additional grant. May the Comptr be consulted? But it is hardly likely that he will be able to suggest any savings.

Purnaprasada
Bangalore,
19th June 1903.

My dear Mr. McHutchin,

I have long thought it necessary that to improve the surroundings of the Amba Vilas portion of the Palace at Mysore certain houses should be acquired. I inspected these houses once again on the 8th instant and I am impressed with the necessity of early action being taken. I do not know how your budget works out at the end of the current official year, and if there is any money which you will allow to lapse Money has to be somehow found to acquire these houses which render the Palace surroundings insanitary. Can you kindly find by reappropriation about Rs40,000/- before the end of this month. Please send an early reply, so that, if money is available, the work may at once be taken in hand.

Yours sincerely,

(Sd) P. N. Krishnamoorthy

Proposals for removing the block of buildings on the Ambavilas side of the Palace.

Submitted to His Highness.

This proposal is for removing the block of buildings in the clearance on the Ambavilas side of the Palace as also of a house near the turn at the Northern Fort Gate. There will not be a Meeting of the Council till the 30th instant and it will then be too late to apply for the sanction of His Highness. Myself and the Second Councillor are agreed. If I had known the view of the First Councillor, I would have called an urgent meeting - but I received the papers just now (8.30 p.m) after enquiring for them. There is no reason whatever for not disposing of this matter by circulation. From sanitary and other points of view the removal of the buildings is very necessary and it will be convenient to take further action if His Highness is pleased to graciously wire sanction in the course of tomorrow which is the last but one day for the close of the year. The grant is for ₹43,356.

in their letter of 22nd Instant inform that the 2nd Consignment of pipes is expected to be delivered at Borgaum 10 days hence and the payment to be made to them will have to be charged only against next years budget grant.

3. It is not known whether the sum of £8193-15-3 placed at the credit of Captain J. H. Thomson for payments to be made in England to Filter and Company and Messrs James Simpson and Company will be transferred to this Department for adjustment ag[illegible] at the current year's grant. Even granting that this amount will be transferred the lapse will be about Rs 2,35,000/- which may be resumed by the Chief Engineer.

4. The lapse is due to the non- receipt of pipes (vide para 2 above) and the late receipt of Engine and Boiler House plans.

Submitted to the Dewan of Mysore, with reference to his D.O. of the 19th instant (enclosed).

II It will be seen from this reference that there will be a large saving on the grant sanctioned for the Water Supply of the Kolar Gold Fields and instead of allowing the amount to lapse, you may issue orders in the Financial Department, resuming a portion thereof to the extent required for the acquisition of the houses around the Amba Vilas, as proposed.
